TOUCHSYSTEMS

V423I6BOW

42" Information Station

The V423I6BOW bundled solution brings together the components you need to create a richly interactive advertising, digital directory, way-finding or other experience in a retail, office, healthcare, hospitality or similar environment.

The large-screen 42-inch display offers 6-point infrared touch technology, and the ultra-slim wall mount for low-profile applications offers boundless placement opportunities and speedy installations.

The bundle includes the latest Intel (OPS) Ivy Bridge system for 1080p video playback and a wireless LAN. A power strip, also included, helps protect your information station.
